Paramus, New Jersey | (551) - 238-8523 | vedant.patel17@outlook.com | www.vedantpatel.live | www.linkedin.com/in/vedantpatel17

Proactive Web Developer adept at both frontend and backend development. With over 3 years of hands-on experience and a comprehensive academic foundation, I excel in creating interactive web solutions. Eager to deploy my diverse skillset to develop innovative digital platforms that resonate with users.

Education

Bachelor of Science in Information Technology & Informatics | December 2022 | Rutgers University

- Acquired practical skills in web design, web development, and programming to generate digital content that prioritized and influenced user experience
- Applied and simulated skills in the form of various personal and academic projects by incorporating and combining an understanding of scripting and programming to create a React UI Kit, JavaScript Shopping Cart, Virtual Keyboard, Parallax Website, Transition Effect, and Python Price Tracker
- Completed courses in [Adv Web Design, Object-Oriented Programming, Information Security, UX Design] through active participation, combining both theory and practice to further prepare for the development of technical resources

Professional Experience

Evolve Computing | Smyrna, Delaware

Full Stack Developer | January 2023 – Present

- Integral part of the web development team, specializing in backend development to optimize and enhance site functionality.
- Utilized PHP, SQL, and JS to develop robust web applications and ensure the seamless performance of web platforms.
- Worked extensively with APIs such as Plaid, Decision Logic, eOriginal, and Smart Signature to integrate external services and enhance the functionality of web applications.
- Maximized value to the organization by collaborating effectively within a development team, ensuring seamless project executions and timely delivery.

Whole Foods Market | Paramus, New Jersey

Team Assistant | September 2020 – December 2022

- Facilitate logistical operations by selecting and packing products for customers, fulfilling 100 orders per day.
- Handle high demand by staying on-task and learning the store layout, meeting, and exceeding performance-based metrics by 100% to help prepare orders for delivery.
- Offer premier service by proactively engaging fellow team members and customers, communicating effectively to drive positive feedback and build rapport.

Bergen Community College | Paramus, New Jersey

Technical Assistant | April 2019 - May 2020

- Delivered technical support by troubleshooting hardware and software, providing resolution to identified issues to maintain resource utility for a campus of 2.
- Applied best practices by adhering to internal requirements to ensure data integrity for devices, mitigating risk and reinforcing organizational goals.
